

# Book in a Box

## The Project:

Decorate a box to represent a book and fill it with objects that represent different parts of the book.

## The Details:

- You can use a shoebox, oatmeal canister, coffee can, or any other similarly sized container for the project.
- Decorate the box to represent the book. You may draw pictures yourself, use pictures from a magazine, or print them off the internet (pictures should be colored). Be sure to include the title author of the book on the box as well as your name.
- Find at least 4 different objects. You can use pictures if the object you want to use is too big to fit inside the box. (examples: Car or House)
- For each object make a note card that includes the name of the object at the top and a paragraph about how the object is an important part of the book.
- Also, write a paragraph on 4 different note cards describing the main character, describe the main conflict without giving away too much, describe the setting, and what you feel is the theme. Use evidence from the book with page numbers to support your claims.

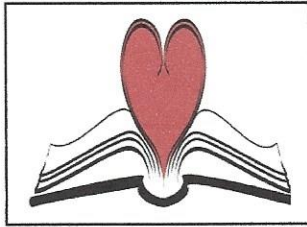

## Tips for Success

- As you read the book, keep a list of ideas for objects that you might want to use for the project.
- If you use pictures, glue them onto cardboard backings to make them more durable and appealing.
- Try to find one object for each chapter and when you finish, decide which 4 you like the best.
